2. Severability

The Purchaser and the Company agree that if any portion of these Terms is found illegal or unenforceable, in whole or in part, such provision shall, as to such jurisdiction, be ineffective solely to the extent of such determination of invalidity or unenforceability without affecting the validity or enforceability thereof in any other manner or jurisdiction and without affecting the remaining provisions of the Terms, which shall continue to be in full force and effect.

All purchases of FENIKS are final. Purchases of FENIKS are non-refundable. By purchasing FENIKS, the purchaser acknowledges that neither the Company nor any of its affiliates, directors or shareholders are required to provide a refund for any reason.

If the Company believes, in its sole discretion, that any individuals or entities owning FENIKS creates material regulatory or other legal risks or adverse effects for the company and/or FENIKS, the company reserves the right to:

- (a) buy all FENIKS from such FENIKS owners at the then-existing market price;
- (b) sell all cryptocurrency assets of the company;
- (c) refuse or cancel Token purchase requests at any time in its sole and absolute discretion.

6. Taxation

The Purchaser bears the sole responsibility to determine if the purchase of FENIKS with ETH or the potential appreciation or depreciation in the value of FENIKS over time has tax implications for the Purchaser in the Purchaser's home jurisdiction. By purchasing FENIKS, and to the extent permitted by law, the Purchaser agrees not to hold any of the Company, its affiliates, shareholders, director, or advisors liable for any tax liability associated with or arising from the purchase of FENIKS.

7. Privacy

The Purchasers may be contacted by email by the Company. Such emails will be informational only.

8. Force Majeure

The Team is not liable for failure to perform solely caused by:

- unavoidable casualty,
- delays in delivery of materials,
- embargoes,
- government orders,
- acts of civil or military authorities,

- acts by common carriers,
- emergency conditions (including weather conditions),
- security issues arising from the technology used,
- or any similar unforeseen event that renders performance commercially implausible. If an event of force majeure occurs, the party injured by the other's inability to perform may elect to suspend the Terms, in whole or part, for the duration of the force majeure circumstances. The party experiencing the force majeure circumstances shall cooperate with and assist the injured party in all reasonable ways to minimize the impact of force majeure on the injured party.

9. Disclaimer of Warranties

The Purchaser agrees that the Purchaser is purchasing FENIKS at the Purchaser's sole risk and that FENIKS is provided on an "as is" basis without warranties of any kind, either express or implied, including, but not limited to, warranties of title or implied warranties, merchantability or fitness for a particular purpose. Without limiting the foregoing, none of the the Team warrants that the process for purchasing FENIKS will be uninterrupted or error-free.

Some jurisdictions do not allow the exclusion of certain warranties or disclaimer of implied terms in contracts with consumers, so some or all of the exclusions of warranties and disclaimers may not apply to you.

10. Limitations Waiver of Liability

The Purchaser acknowledges and agrees that, to the fullest extent permitted by any applicable law, the disclaimers of liability contained herein apply to any and all damages or injury whatsoever caused by or related to

- (i) use of, or inability to use, FENIKS or
- (ii) the Team under any cause or action whatsoever of any kind in any jurisdiction, including, without limitation, actions for breach of warranty, breach of contract or tort (including negligence) and that none of the Team shall be liable for any indirect, incidental, special, exemplary or consequential damages, including for loss of profits, goodwill or data, in any way whatsoever

arising out of the use of, or inability to use, or purchase of, or inability to purchase, FENIKS, or arising out of any interaction with the smart contract implemented in relation to FENIKS.

The Purchaser further specifically acknowledges that the Team is not liable for the conduct of third parties, including other Purchasers of FENIKS, and that the risk of purchasing and using FENIKS rests entirely with the Purchaser. To the extent permissible under applicable laws, under no circumstances will any of the Team be liable to any Purchaser for more than the amount the Purchaser have paid to the company for the purchase of FENIKS. Some jurisdictions do not allow the exclusion of certain warranties or the limitation or exclusion of liability for certain types of damages. Therefore, some of the above limitations in this section and elsewhere in the Terms may not apply to a Purchaser.

11. No Waiver

The failure of the Company to require or enforce strict performance by the Purchaser of any provision of these Terms or the Company's failure to exercise any right under these Terms shall not be construed as a waiver or relinquishment of the Company's right to assert or rely upon any such provision or right in that or any other instance. The express waiver by the Company of any provision, condition, or requirement of these Terms shall not constitute a waiver of any future obligation to comply with such provision, condition or requirement.

12. Cooperation with Legal Authorities

The Company will cooperate with all law enforcement enquiries, subpoenas, or requests provided they are fully supported and documented by the law in the relevant jurisdictions.

13. Indemnification

To the fullest extent permitted by applicable law, you will indemnify, defend and hold harmless the Team from and against all claims, demands, actions, damages, losses, costs and expenses (including attorneys' fees) that arise from or relate to:

- (i) your purchase or use of FENIKS;
- (ii) your responsibilities or obligations under these Terms;

- (iii) your violation of these Terms; or
- (iv) your violation of any rights of any other person or entity.

14. Security

You are responsible for implementing reasonable measures for securing the wallet or other storage mechanism you use to receive and hold FENIKS purchased from the Company, including any requisite private keys or other credentials necessary to access such storage mechanisms. If your private keys or other access credentials are lost, you may lose access to your Tokens. The Company is not responsible for any losses, costs or expenses relating to lost access credentials.

15. Assumption and Acknowledgment of Risks

You acknowledge and agree that there are risks associated with purchasing, owning and using FENIKS. By purchasing FENIKS, you acknowledge that you have read, understood and agree to assume the following risks:

Risk of Losing Access to Tokens Due to Loss of Private Key, Custodial Error or Purchaser Error

A private key is necessary to control and dispose of Tokens stored in your digital wallet. Loss of requisite private key associated with your digital wallet storing Tokens will result in loss of such Tokens. Moreover, any third party that gains access to such private key may be able to misappropriate your Tokens. Any errors or malfunctions caused by or otherwise related to the digital wallet you choose to receive and store Tokens in, including your own failure to properly maintain or use such digital wallet, may also result in the loss of your Tokens. Additionally, your failure to follow precisely the procedures set forth in for buying and receiving Tokens, including, for instance, if you provide the wrong address for the Token Receipt Address, may result in the loss of your Tokens.

Risk of Hacking and Security Weaknesses

Hackers or other malicious groups or organizations may attempt to interfere with the platform or the Tokens in a variety of ways, including, but not limited to, malware attacks, denial of service attacks,

consensus-based attacks, Sybil attacks, smurfing and spoofing. Furthermore, because the platform is based on open-source software, there is a risk that a third party or a member of the Company team may intentionally or unintentionally introduce weaknesses into the core infrastructure of the platform, which could negatively affect the platform and the Tokens, including the utility of the Tokens for obtaining Services.

Risks Associated with Markets for Tokens

The Tokens are intended to be used solely within the platform, and the Company will not support or otherwise facilitate any secondary trading or external valuation of Tokens. This restricts the contemplated avenues for using Tokens and could therefore create illiquidity risk with respect to the Tokens you own. Even if secondary trading of Tokens is facilitated by third party exchanges, such exchanges may be relatively new and subject to little or no regulatory oversight, making them more susceptible to fraud or manipulation. Furthermore, to the extent that third-parties do ascribe an external exchange value to Tokens (e.g., as denominated in a digital or fiat currency), such value may be extremely volatile and diminish to zero.

Risk of Uninsured Losses

Unlike bank accounts or accounts at some other financial institutions, Tokens are uninsured unless you specifically obtain private insurance to insure them. Thus, in the event of loss or loss of utility value, there is no public insurer, such as the Federal Deposit Insurance Corporation, or private insurance arranged by Company, to offer recourse to you.

Risks Arising from Taxation

The tax characterization of FENIKS is uncertain. You must seek your own tax advice in connection with purchasing FENIKS, which may result in adverse tax consequences to you, including withholding taxes, income taxes and tax reporting requirements.

Risks Associated with Uncertain Regulations and Enforcement Actions

The regulatory status of the Tokens and distributed ledger technology is unclear or unsettled in many jurisdictions. It is difficult to predict how or whether regulatory agencies may apply existing regulation with respect to such technology and its applications, including the platform and the Tokens. It is likewise difficult to predict how or whether legislatures or regulatory agencies may implement changes to law and regulation affecting distributed ledger technology and its applications, including the platform and the Tokens. Regulatory actions could negatively impact the platform an

Risk of Competing platforms

It is possible that alternative platforms could be established that utilize the same open source code and protocol underlying the platform and attempt to facilitate services that are materially similar to the Company services.

Risks Associated with the Development and Maintenance of the platform

The platform is still under development and may undergo significant changes over time. Although the Company intends for the Tokens and platform to function as described and intends to take commercially reasonable steps toward those ends, the Company may have to make changes to the specifications of the Tokens or platform for any number of legitimate reasons. Moreover, the Company has no control over how other participants will use the platform, what products or services will be offered through the platform by third parties, or how third-party products and services will utilize Tokens (if at all). This could create the risk that the Tokens or platform, as further developed and maintained, may not answer your expectations at the time of purchase. Furthermore, despite the Company's good faith efforts to develop and participate in the platform, it is still possible that the platform will experience malfunctions or otherwise fail to be adequately developed or maintained, which may negatively impact the platform and Tokens, and the potential utility of the Tokens.

Risk of an Unfavorable Fluctuation of ETH or BTC Value

If the value of ETH or BTC fluctuates unfavourably the Company team may not be able to fund development, or may not be able to develop or maintain the platform in the manner that it intended. In

addition to the usual market forces, there are several potential events which could exacerbate the risk of unfavorable fluctuation in the value of ETH and/or BTC, including significant security incidents or market irregularities at one or more of the major cryptocurrency exchanges.

Risk of Dissolution of the Company or platform

It is possible that, due to any number of reasons, including, but not limited to, an unfavorable fluctuation in the value of ETH and/or BTC (or other cryptographic and fiat currencies), decrease in the Tokens' utility (including their utility for obtaining Services), the failure of commercial relationships, or intellectual property ownership challenges, the platform may no longer be viable to operate or the Company may dissolve.

Risks Arising from Lack of Governance Rights

Because Tokens confer no governance rights of any kind with respect to the platform or the Company, all decisions involving the Company's products or services within the platform or the Company itself will be made by the Company at its sole discretion, including, but not limited to, decisions to discontinue its products or services in the platform, to create and sell more Tokens for use in the platform, or to sell or liquidate the Company. These decisions could adversely affect the platform and the utility of any Tokens you own.

Unanticipated Risks

Cryptographic tokens such as the FENIKS are a new and untested technology. In addition to the risks included in these Terms, there are other risks associated with your purchase, possession and use of the Tokens, including unanticipated risks. Such risks may further materialize as unanticipated variations or combinations of the risks discussed in these Terms.
